Guiding Principles

1. In general, policy documents will have three sections:
 - a) the policy statement itself,
 - b) a set of guiding principles,
 - c) administrative procedures.

The policy statement and the guiding principles are formally adopted by the Board, and can be amended only through Board resolutions. The policy statement should consist of the general subject matter of the policy. Guiding principles lay out directions from the Board as to how the policy should function.

Administrative procedures developed by the administrative staff of the District describe the details as to how the policy will be implemented, utilized and monitored within the schools and the District. Administrative procedures can be modified as needed from time to time by the Executive staff of the District in consultation with the Board.

2. The policy manual should organize policies around the following significant areas:
 - Governance and communication
 - Finance and facilities
 - Educational programs and services
 - Students
 - Staff
 - Health and safety
3. Policy reviews will be conducted by the Policy Development Standing Committee of the Board. When policy reviews are completed, the results of the review should be shared widely.
4. The Superintendent of Schools, as Chief Executive Officer of the Board, will be responsible for:
 - Receiving issues concerning the operation of existing policy or the need for new policy
 - Determining how issues raised should be followed up
 - Referring appropriate issues to the Policy Development Standing Committee of the Board (see Policy 1000 – Procedural Bylaw), or other committees as appropriate
 - Determining the manner of communication of policy or policy changes to the broader community

Initiating Policy Considerations

Processes for initiating policy or policy change can be triggered by:

- Discussion of issues at meetings of the Board or Board committees
- Informal communications among staff, trustees, parents, and students
- Issues raised at public meetings
- Specific concerns that arise in the regular operation of the District
- Suggestions by the Ministry or other external agencies
- Research or study by any of the working groups in the District, including the Executive Committee and the management team

Policy Adoption

Policies are adopted through the following general process:

- A policy proposal is drafted, usually by staff of the District.
- The draft policy is reviewed broadly in an appropriate manner, depending on the nature of the proposed policy. This could include consultation with community agencies, the business community, or the public at large.
- The draft policy is presented to the Policy Development Standing Committee of the Board who can request that policy be further reviewed, or make recommendations on the draft policy to the Board.
- When the policy is ready for Board consideration, a trustee will serve *notice of motion* at a regular public meeting of the Board of his or her intention to move the policy motion at a regular public meeting of the Board scheduled for a date that will normally allow for approximately two months of consultation. As necessary, attached to each notice of motion will be an impact statement indicating the significance of the change proposed. Groups representing all parties affected by the proposed change in policy will be advised directly and provided with a copy of the draft policy. This notice provides the public and all interested parties approximately two months for reflection, representation or for proposed revisions.
- At the Board meeting referenced in the notice of motion, the Board may adopt the policy, with or without amendments.
- The new or amended policy is circulated to all holders of the policy manual.

Policy Communication

New or changed policies, including changes to administrative procedures, will be communicated to all staff and other interested parties by members of the management team (executive and school-based administrators), and through liaison with the STA, CUPE, and COPACS. Changes to administrative procedures will be filed with the Board, and in all copies of the policy manual. Communications to the public will be through press releases, or through other vehicles such as the report Highlights from the Board, issued after each Board meeting.

Policy Implementation

The management staff of the District has the responsibility to ensure that all affected parties are aware of the policy and the importance of compliance.

Access to Policy Manuals

Policy manuals are public documents and are available to anyone who would like to view them at the Board Office, in schools, and in the offices of related partner organizations. Manuals are updated through regular bulletins from the office of the Superintendent. Manual holders are responsible for keeping their manuals current.

Monitoring of Policy Operations

In general, the District depends on all interested parties watching the operation of the policy, bringing perceived issues to the attention of appropriate personnel at the most immediate level, and if necessary at a later time, to the Superintendent of Schools. On the other hand, some policies contain formal processes for periodic reports to the Board of activity in the area to which the policy refers. External reviews such as audits by the Board's auditors, the Ministry of Education or investigations by the Office of the Ombudsman may include reviews of District policy and the effectiveness of their implementation.

School District No. 63 (Saanich)

Policy Name: Parent Involvement

No: 1100

Preamble

The Board of Education believes that parents are partners in the education of their children. Parents have the right and responsibility to work with the school and the school district in support of children and learning and in the process of determining educational goals, policies and services provided for their children. The Board also believes that it is important to support parents in their primary responsibility of ensuring that children are provided with the healthy and supportive environment necessary for learning.

The Board recognizes that the most effective education for students occurs when parents are active partners in the learning process. Collaborative partnerships between school staff and parents provide an atmosphere of teamwork which motivates, supports and encourages children to become lifelong learners and valuable contributors to society. Continued parental involvement in the education of their children, throughout all grade levels, contributes to student achievement and to a positive school environment.

Policy Statement

The Board recognizes that student success is enhanced by positive working relationships among parents, teachers, support staff, administrators, district staff, trustees, and, as appropriate, community partners.

The Board acknowledges and respects the rights of parents to be involved in the education of their children and values parents' contributions to school communities. The Board supports and encourages parents' involvement by creating and maintaining a climate and structure which support meaningful parent involvement.

Note: For the purposes of this policy, the term "parent" shall be as defined in the School Act.

PARENT/STUDENT APPEALS BY-LAW

A BY-LAW OF THE BOARD OF EDUCATION OF SCHOOL DISTRICT NUMBER SIXTY-THREE (SAANICH) TO ADMINISTER PARENT/STUDENT APPEALS.

WHEREAS IT IS DEEMED EXPEDIENT TO PASS SUCH A BY-LAW,

NOW THEREFORE the Board of Education of School District Number Sixty-three, (Saanich), enacts as follows: -

SECTION I. PREAMBLE

The School Act (Section 11) requires that Boards of Education establish procedures which enable a student and/or parent (or guardian) of a student to appeal a decision made by a Board employee which significantly affects the education, health or safety of a student. The Act (Section 11.1) also provides for some decisions made by Boards under Section 11 to be appealed to Superintendents of Achievement (see Appendix C).

The Act and this policy give a student and/or parent (or guardian) the right of appeal. The Board will not tolerate any form of reprisal on the part of a student, parent (or guardian) or employee as a result of the initiation or outcome of an appeal.

SECTION II. POLICY STATEMENT

The Board believes that the best recourse to address concerns or complaints regarding a student's education, health or safety is at the level at which the original decision is made, and that all parties will work together (see Policy 1360 – Complaints Regarding Personnel, Programs or Procedures) to resolve differences prior to initiating a formal appeal.

If the disagreement is not resolved at the level where the decision was made, and the student and/or parents (or guardians) of a student believe that a decision of an employee of School District No. 63 (Saanich) significantly affects the education, health or safety of a student, the student and/or parent (or guardian) may, within 15 school days of the conclusion of the procedures outlined in Policy 1360, appeal the decision in accordance with the provisions of this policy. For the purposes of the Act and this policy, the failure to make a decision is considered to be a decision which can be appealed.

SECTION III. GUIDING PRINCIPLES

1. Prior to a matter being referred to the Board for consideration under Section 3, a student or parent (or guardian) should make a reasonable effort to discuss and resolve the concern through the processes outlined in Policy 1360 – Complaints Regarding Personnel, Programs or Procedures.

2. Students, parents (or guardians), and employees shall be made aware of the appeal policy and related forms which shall be made readily available, including as outlined in the Administrative Procedures and at other times as is appropriate within a complaints resolution process.
3. The appeal process shall be as user friendly as possible and any forms shall be easy to access and use.
4. An appeal will be considered by the Board only if the Board determines that the decision is a decision of an employee of the Board and that it significantly affects the education, health or safety of a student. Examples include, but are not limited to, those listed in the Appeals Regulation (Appendix C) that governs appeals beyond the Board to Superintendents of Achievement.
5. The Board believes that there may be times when mediation may help resolve disagreements of the kind that may be considered for appeal, and that mediation must be handled without prejudice to future proceedings.
6. Any mediation or appeal must be dealt with by all parties in confidence, without reprisal, and as quickly as possible, with timelines linked to the nature of the decision.
7. The student and/or parent (or guardian) appealing the decision and the employee whose decision is being appealed shall have the right to see all information that will be presented to the Board at least 48 hours prior to a Board appeal hearing, and to be heard by the Board at the time the Board is considering the information.
8. The student or parent (or guardian) and employee shall have the right to be accompanied by an advocate when meeting with the Board.
9. Trustees are expected to exclude themselves from a hearing of an appeal if they have direct first-hand knowledge of the circumstances that led to the appeal, and the trustee believes that by remaining at the hearing there would be a reasonable perception of bias on the part of the trustee.

SECTION IV: ADMINISTRATIVE PROCEDURES

1. The Student and/or Parent Handbook for each school and the annual Information Booklet for Parents and Students shall contain a brief description of the Complaints Policy (1360) and Appeals Bylaw and shall inform parents of where they can be found.
2. Annually, at the first parent assembly at each school, the principal shall provide a brief description of the Complaints Policy and Appeals Bylaw.

3. Copies of the Appeals Bylaw, including the Notice of Appeal, and the Complaints Policy shall be readily available at each school office, at the School Board Office and on district and school websites.
4. At the annual COPACS meeting required by the Parent Involvement Policy (No. 1100), the Superintendent shall give a brief description of the Complaints Policy and Appeals Bylaw and processes.
5. Complaints will be handled in accordance with Policy 1360 – Complaints Regarding Personnel, Programs or Procedures.
6. If the complaint or disagreement is not resolved through the provisions of Policy 1360, then the student and/or parent (or guardian) may submit a Notice of Appeal to the Superintendent of Schools who will inform the Chair of the Board. The Board Chair will, if the parties agree, refer the matter to an independent mediator or, if not, refer the matter for consideration by the Board.
7. Where both parties agree to mediation, an independent mediator acceptable to both parties will be appointed. The role of the mediator will be to bring the employee and the student and/or parent (or guardian) together to ensure that each has an awareness of all the information and to determine if a mutually satisfactory resolution is possible. The mediator shall provide a written report on the areas of resolution and/or non-resolution to the Superintendent with copies to both parties. If resolution is not achieved through mediation, the Superintendent will inform the Board Chair who will refer the matter to the Board.
8. A Board may refuse to hear an appeal under this section unless the appellant discusses the decision under appeal with one or more persons as directed by the Board.
9. Should the matter be referred to the Board, the Board will first determine whether or not the decision is a decision of an employee, and if so that it significantly affects the education, health or safety of the student. If the Board determines that is not the case, the student or parent (or guardian) will be informed of that decision and the reasons for that decision as well as of the opportunity for the student or parent (or guardian) to access the appeal process outlined in the Act (Section 11.1) and the Appeals Regulation (see Appendices B and C).
10. Where the Board determines that the matter does significantly affect the education, health or safety of the student, the Board may establish a committee to investigate the matter under appeal, and will schedule a meeting of the Board to consider the appeal.

11. If the Board decides to hear the appeal, the Board shall convene a meeting as soon as possible to consider the information related to the appeal and, if possible, render a decision. At least 48 hours prior to that meeting, trustees and both parties shall be provided with a copy of the information being presented to the Board. Each party has the right to be heard by the Board at the time the Board is considering the information. The student or parent (or guardian) or employee shall have the right when meeting with the Board to be accompanied by a support person or advocate of his or her choosing. The meeting with the Board is intended to be informal so that relevant information can be presented and considered without any concern of intimidation.
12. The Board will meet in-camera as soon as practicable after the meeting at which information is received from both parties and determine to uphold the decision, amend the decision or overturn the decision.
13. Both parties shall be informed of the Board's decision and the reasons for the decision orally within 24 hours and in writing within five days of the decision being made. The Board's decision must be made within 45 days of receiving the Notice of Appeal.
14. Appellants will be given the opportunity to provide feedback regarding the appeals process.
15. Board decisions made in accordance with this policy and that fall within the scope of the Appeals Regulation (see Appendix C) may be appealed to a Ministry of Education Superintendent of Achievement. The student and/or parent (or guardian) shall be informed of this right

F. Notification of the Collection and Retention of Student Records

1. Under section 27 of FOIPPA, the school district must give notification to the individual from whom it collects personal information of: the purpose for collecting it; the legal authority for the collection, and; the name and contact information for a school district employee or representative who can answer the individual's questions about the collection.
2. Annually, Principals must ensure that students and parent/guardians receive this message by letter, e-mail, newsletter or form:

"The information on this form is collected under the authority of the *School Act*, Sections 13 and 79. The information provided will be used for educational programs and administrative purposes, and when required may be provided to health services, social services or support services as outlined in Section 79(2) of the *School Act*. The information collected on this form will be protected consistent with the *Freedom of Information and Protection of Privacy Act*. If you have any questions about the information recorded on this form, please contact the School Administrator."

G. Collection of Information as a result of an incident

Incidents refer to bullying, intimidation, altercations or fights involving two or more students, acts of vandalism and theft. Section 26 of FOIPPA confirms that the school district may collect personal information where the collection is expressly authorized by or under an Act (i.e. the *School Act*) or where the information relates directly and is necessary for an operating program or activity of the public body (the delivery of an educational program to students enrolled in the school district). When recording information about an incident it is important that employees include all information necessary for others to understand the extent of the incident and to assist decision-makers in making an informed decision.

Practical tips for recording personal and other information related to incidents are as follows:

- Record factual information – what you observed or heard.
- Use professional language and observations or comments as students involved in the incident or their parents may request access to records and information about the incident.

School District No. 63 (Saanich)

Policy Name: Collection, Retention and Security
of Student Records under Freedom of
Information & Protection of Privacy Act

No: 1210

- 6 -

Administrative Procedures (cont'd)

- Where possible or appropriate, separate the personal information of different individuals involved in the incident. For example, in an altercation between two students, create a separate record or report from each student's perspective.
- Unless necessary, do not identify other individuals (third parties) in a report that focuses on a particular student. Instead you could refer to the "other student," "student's father" or "homeowner."
- At all times, limit access to records about the incident to those employees who have a "need-to-know" what happened or are involved in making a decision related to an appropriate response to, or discipline or sanctions arising from, the incident.
- Store personal and other information related to the incident separately from other less sensitive information in a student's file or store the incident information in a different location.
- Under FOIPPA, personal information used in making a decision that directly affects the individual must be retained by the school district for at least one year so that the student, parents or others may request access to the information.
- The school district's records management policy requires that information about (serious, critical) incidents must be kept for two years or until the after student withdraws from the system so that teachers or administrators, on a "need-to-know" basis, in the school, other schools or other school districts would still have access to the information.

Requests for documents under the Freedom of Information and Protection of Privacy Act:

- a) The Secretary-Treasurer is responsible for ensuring that the District complies with the provisions of the Act.
- b) All persons making requests for the release of information shall be notified as to appeal provisions under the Act.

Date of Initial Board Approval: September 2004

Amendments: January 2012

School District No. 63 (Saanich)

Policy Name: Parental Access to Student Records and Student Information

No: 1220

Preamble

The Board of Education recognizes that positive communications between home and school contribute to student success and that parents are entitled to student records pursuant to the School Act. Students have rights of access to their own records under the School Act and the Freedom of Information and Protection of Privacy Act. Custodial parents exercise these rights on behalf of children too young to exercise them for themselves. The School Act also recognizes a “joint” right of students and parents to inspect student records, as defined in the School Act.

Policy Statement

The Board will endeavor to facilitate access to student records to both custodial and non-custodial parents to the extent legally appropriate and reasonable in all the circumstances. In making decisions regarding the disclosure of student records to a student's parents/guardians, either custodial or non-custodial, the Board will be guided by the School Act, the Freedom of Information and Protection of Privacy Act, other relevant legal considerations, and the best interests of students.

School District No. 63 (Saanich)

Policy Name: Parental Access to Student Records and Student Information

No: 1220

Guiding Principles

1. In accordance with the School Act, a parent (or student) is entitled, on request, in a timely manner, and while accompanied by the principal or designate, to access and examine all student records pertaining to that student and receive a copy, at no charge, of any such record.
2. In order for a person to be entitled to exercise the rights of a parent under the School Act, including accessing student records, the person must either be:
 - a) the guardian of the student;
 - b) the person legally entitled to custody of the student; or
 - c) the person who usually has the care and control of the student.
3. Persons who have access rights under a Court Order or Separation Agreement are entitled to access and examine student records in accordance with that Order or Agreement. If not specified, that right would normally include the right for a parent or guardian to receive report cards and attendance information.
4. As a practical matter, the primary contact with the school should be the person who has legal custody of a child. Where school administrators require information or direction regarding the disclosure of student records and information, the contact should be with the custodial parent whenever possible.
5. School administrators should not become engaged in disputes between custodial and non-custodial parents about the disclosure of student records. If there is no governing Court Order and the custodial and non-custodial parent disagree about the disclosure of student records, direction should be taken from the custodial parent until the matter is clarified by a Court Order or subsequent agreement between the parents. Disputes of this nature that cannot be resolved at the school level should be referred by school administrators to the Superintendent or designate.
6. It is the responsibility of the custodial parent to provide the school with copies of any legal documentation, usually in the form of a Court Order or Separation Agreement, which stipulates relevant custodial arrangements, including details of any restraining orders against a parent. A non-custodial parent seeking access to student records shall be required to provide the school principal with legal documentation confirming that he/she is entitled to those records. If there is a change in the legal status of the parents, it is up to the parents to bring it to the attention of the school. The school should request a copy of the changed order or agreement.

Policy Name: Parental Access to Student Records and Student Information

No: 1220

Guiding Principles (cont'd)

7. Both custodial and non-custodial parents may attend a parent-teacher conference, provided that such participation is not prohibited by Court Order or Separation Agreement, and that it is reasonable for such joint participation. Typically, the school will only schedule one parent conference per child. If the non-custodial parent wishes to attend a parent-teacher interview at school and the custodial parent objects to such attendance, if the non-custodial parent has no apparent right under the School Act, Court Order or Separation Agreement (for example as joint guardian) to attend such a meeting, then the school administrator should abide by the direction of the custodial parent.
8. If school administrators have any questions concerning the validity or meaning of a Court Order or Separation Agreement, or any concerns relating to student custody issues, they should seek advice from the Superintendent or designate.
9. School administrators and staff should not give the appearance of support for one parent or the other in the event of a custody dispute. Requests for cooperation on evidence and subpoenas should be directed to the Superintendent or designate prior to the school staff providing any information.
10. The Freedom of Information and Protection of Privacy Act strictly guards the confidentiality of student personal information. Disclosure to third parties is only allowed as specifically provided for in that Act or required by another enactment.

Policy Name: Parental Access to Student Records and Student Information

Administrative Procedures

1. The following procedure shall be used with regard to requests from a non-custodial parent for access to student records and information.
 - (a) The Access to Information Form (A) shall be completed by the non-custodial parent.
 - (b) The custodial parent shall be informed of the request by the non-custodial parent, and the Access to Information Form (B) shall be signed and returned by the custodial parent.
 - (c) If the custodial parent objects to the disclosure of student records to the non-custodial parent, the school administrator shall not disclose such records to the non-custodial parent unless and until the matter has been clarified by Court Order or the agreement of the parents.
 - (d) If the non-custodial parent has provided legal verification concerning his/her guardianship of a student, but the custodial parent does not consent to the school's disclosure of student records to the non-custodial parent, the matter should be referred by the school administrator to the Superintendent or designate for assistance in resolving this dispute.

Policy Name: Distribution of Information Through Schools

No. 1230

Preamble:

The Board recognizes that regular school/home communication through newsletter and through the facilitation of distribution by students may invite undue pressure in the amount and nature of information to be delivered to the homes.

The Board also understands the difficulty of central decision-making regarding the choices of both inclusion and exclusion of information to be sent home.

The Board has adopted a philosophy of decentralization in many of its operations, leaving decision-making closest to the individual workplace.

Policy Statement:

The Board encourages school administrators to optimize school/home communication. The Board further believes that the decision, as to the manner, format style and content of school/home communication, is the responsibility of the Principal of each school.

No: 1310

Preamble

Guiding Principles

1. The Board believes that students must be active in building a society that is socially responsible and environmentally sustainable. The Board supports staff, students and parents being involved in local or global projects that will serve as ongoing reminders of this commitment.
2. The Board supports traditional ecological knowledge (TEK) which draws connections between the land and traditional aboriginal ways of knowing and being. Aboriginal peoples have a long history of sustainability through their cultures and have traditionally been inextricably connected to the land. Support for curricular integration of TEK recognizes culturally influenced, alternate views about ecology and the environment.
3. The Board expects that initiatives undertaken as part of this policy will be consistent with the principles of inclusive schools.
4. The Board expects that every function from office to grounds to educational delivery to community connections will be managed in ways that enhance environmental stewardship and sustainability.

6. Through this policy the Board affirms its commitment to the principles of teaching and learning contained in the BC Ministry of Education (2008) *Sustainability Education Framework, and Environmental Learning and Experience: An Interdisciplinary Guide for Teachers* as well as Environment Canada's (2007) document *Framework for Environmental Learning and Sustainability in Canada*.
7. The Board is committed to assessing progress, setting targets, creating action plans and communicating results of energy and sustainability practices.
8. The Board is committed to an overall reduction of 33 percent of greenhouse gases and 50 percent of total energy by 2020, based on normalized 2007 levels (excluding buses). This represents an average reduction of 5% total energy per year through from 2007 to 2020. The Board will seek capital and outside funding programs to assist in meeting these targets and will endeavour to allocate savings into further sustainability measures.
9. The Board is committed to having a long-term energy, water, waste and greenhouse gas reduction plan and to annually approving reduction targets and implementation plans that will support this long-term plan. In addition, the Board will receive reports on an annual basis which outline progress in relation to processes and targets described in the plan.
